

elementary TECHNOLOGY CONFERENCE

June 9-11 * Galveston, TX

Educating littles is a big job.

So we thought you should have your own conference.

The Elementary Technology Conference (ETC) is a celebration of the joy, creativity, and wonder of teaching young learners. Imagine a professional learning event designed just for you, a PreK-5 educator, where every session relates to the world of teaching tiny humans!

Why You Can't Miss ETC:

Sessions are hand-picked and led by innovative PreK-5 educators!

- Discover fun STEAM activities for small hands!
- Uncover ways to help students be math masters.
- Become the boss of blended learning stations!
- Make literacy and technology the perfect pair.
- Collect tech integration tools and strategies.
- Meet your best, new AI tools.
- And so much more!

Connect, share ideas, and build a network of supportive peers.

Navigate any educational challenge with a community of like-minded elementary educators. Gain knowledge, ideas, and resources from each other! Plus, brainstorm all the ways you'll use what you learned with your students. Leave ETC with innovative solutions and supportive contacts to help you tackle anything and everything!

Step into an exhibitor space that feels like the best classroom ever.

It's like a wish list come to life! Discover the newest ed tech gadgets and gizmos for elementary students and educators. Meet new vendors and talk with some you already know and love! Enter a world where every exhibitor is passionate about supporting elementary education.
